July 9, 2020

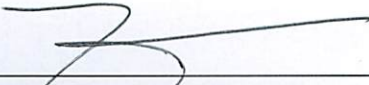

Dear 9/11 Patch,

On behalf of United Firefighters of Los Angeles City Fire Foundation (UFLACFF), we extend our sincere gratitude to you for your contribution to the UFLAC Fire Foundation Burn Fund to support our firefighters and families who recently experienced injury, illness as well as financial hardships as a result of recent fires. UFLACFF is an exempt organization as described in Section 501(c)(3) of the Internal Revenue Code; EIN 83-2814730.

UFLACFF was established to provide financial support to firefighters and their immediate families who suffer economic hardship as a result of illness, injury or death as well as educational assistance to children of fallen firefighters. We also made a commitment to funding safety awareness through public outreach and training programs for Los Angeles firefighters.

Again, we thank you for your commitment to our firefighters and their families, and we look forward to your continued support.

Sincerely,

Freddy Escobar, President
UFLAC Fire Foundation

Adam Walker, Foundation Director
UFLAC Fire Foundation
